International Students 44
Thank you for showing your interest in the graduate programmes of Cork University Business School (CUBS). CUBS is the new Business School of University College Cork and builds on over 100 years of business education here at UCC – we are one of the two largest university business schools in Ireland.

At CUBS you will find that we offer over twenty graduate degree programmes that are tailored to meet your plans and ambitions. Our goal is to give you a very challenging but supportive experience. We strongly believe that we owe it to our students to challenge them so that we can help you to achieve your full potential and help to start you on a very successful career in the global business economy.

All of our teaching, which is research led, is delivered by both scholarly and practitioner experts. You will find that all of our programmes offer you a range of learning experiences through class work, individual assignments, group projects and discussions with business managers.

Ultimately, you will become one of our Alumni – Alumni who are known for their business readiness and very many of whom are in very senior positions across the spectrum of business. Our programmes are very responsive to the needs of business both in Ireland and globally – we continually interact with businesses nationally and internationally to ensure that our programmes are not just relevant but the best available.

We want you to remember your experiences with us as among the most satisfying, challenging and rewarding periods of your life in terms of learning, personal development and your intellectual growth.

Our commitment to you is that we will make your time with us an enjoyable and stimulating shared journey of discovery, development, mutual support and respect.

So, please go ahead and analyse all of the programmes that we offer and please feel free to contact the Programme Directors and enlist their help, if required, in making your choice. We know that this is a very important decision for you and we will give you every assistance that we can.

Wishing you every success,

Prof Thia Hennessy
Dean of Cork University Business School
Cork University Business School offers a broad range of postgraduate business programmes, both taught and research based.

Specific degree requirements depend on the particular programme you wish to study, but in many cases, it is not necessary to have previously studied business or management.

Whatever your background, Cork University Business School has a programme to suit you.

**LEVEL 9**
Postgraduate Diplomas further develop a student’s understanding of the discipline studied.

**LEVEL 9**
Taught Masters are specialist degrees designed to give you professional skills and knowledge about a particular area of business.

**LEVEL 9**
Research Masters are available full-time and part-time to graduates. They provide an opportunity to undertake advanced research on a particular aspect of business.

**LEVEL 10**
Doctoral Degrees A PhD by research can be pursued in a wide range of subject areas within the Business School and provides students with an opportunity to do advanced, scholarly research on a particular aspect of business on a full-time or part-time basis.

◊ Only if correct subject choices are taken.

2H1 Degree minimum.

Please see specific programme entry criteria for further information.

Consideration will be given to applicants who do not meet the minimum criteria but who have relevant professional experience, subject to approval by the Cork University Business School. Please refer to the individual programme’s entry requirements.
MAcc MASTER OF ACCOUNTING
CKL26

This one-year full-time programme offers students a route to a career in professional accounting, incorporating much of the study and examination requirements required to qualify as an Accountant.

Upon successful completion of all requirements of the programme, students will gain full exemption from all but the Final Admitting Examination (FAE) of Chartered Accountants Ireland (CAI).

This programme however offers more than exemptions. Students will receive an intensive tuition in the core technical materials assessed in the professional examinations and gain exposure to the emerging contemporary issues in accounting and finance that will help shape the working environment and the future economy.

This programme offers personal competencies and skills in commercial judgment, providing graduates with a competitive edge as they embark on their career in accounting.

Unique aspects of the Programme:
- This programme prepares students for employment as a trainee accountant, designed with significant contributions from partners, directors and training managers in major accounting firms
- Exemptions from the professional examinations of global accountancy bodies (ACCA, CAI and CPAI)
- Graduates also qualify for exemption from all papers in part 1 of the AITI Chartered Tax Adviser (CTA) qualification
- Each of the “Big 4” firms (Deloitte, Ernst & Young, KPMG and PwC) has indicated a willingness to support students who wish to complete this programme at UCC prior to undertaking professional training

Entry Requirements 2019

Minimum 2H1 (GPA 3.25 out of 4.0) in a degree [NFQ Level 8 or equivalent], with a significant accounting specialisation AND expect to qualify for exemption from the CA Proficiency 1 examination of Chartered Accountants Ireland (CAI). Applicants who do not meet the exemption requirement in full by the registration date may only be admitted in exceptional circumstances following approval by the Programme Board and the Cork University Business School.

Duration: 12 months
Teaching Mode: Full-time
Qualification: MACC
NFQ Level: Level 9
Programme Code: CKL26
Fees: Irish/EU €10,500
International (NEU) €18,000

The MSc International Accounting Practice is a 12 month programme for those preparing to work as accounting professionals. The programme is a taught, conversion programme, so requires significant participation and engagement.

This programme is designed to combine technical skills in accounting and business analysis, with the development of key competencies in teamwork, business acumen, effective communication and critical thinking.

Building on our excellent reputation for producing high calibre accounting graduates recognised by all of the major accounting practices and industry partners, the MSc International Accounting Practice provides students with the skills required to gain a number of exemptions from the main international accountancy bodies such as ACCA, CIMA and CAI, and invaluable work / research experience; creating significant opportunities for subsequent employment, both internationally and nationally.

Unique aspects of the Programme:
- Exemptions from the professional examinations of global accountancy bodies (ACCA, CIMA, CAI)
- A UCC organised placement in an accounting role or a practice-oriented research project
- Employment-relevant skills and competencies, enabling an ability to identify, clarify, evaluate and manage business and financial risk
- Academically and professionally qualified lecturers
- Extensive professional skills development and specialised career advice

E margaret.healy@ucc.ie

Entry Requirements 2019
Minimum 2H2 (GPA 3.00 out of 4.00) degree or higher; or expectation of graduating with a 2H2 degree (NFQ Level 8) or equivalent. No prior study of business / accounting is required. However, all applicants must submit a personal statement (minimum of 200 words).

Duration: 12 months  
Teaching Mode: Full-time  
Qualification: MSc  
NFQ Level: Level 9  
Programme Code: CKL43  
Fees: Irish/EU €10,500  
International (NEU) €18,000
The MSc Management Information and Managerial Accounting Systems (MSc MIMAS) is unique in combining digital capabilities with management accounting.

The hybrid skills empower students to design systems and decision support tools, whilst assimilating the relationship of data to management decision making. Through research and practical work, students also become confident communicators, capable of analysing complex processes and implementing organisational change.

The applied nature of the MSc MIMAS has evolved in response to market needs. For example, as data analytics became increasingly prevalent, the MSc MIMAS incorporated advanced data visualisation and dashboard content into its curriculum.

The six-month placement is the culmination of the MSc MIMAS programme, challenging students to apply their newly acquired confidence and enthusiasm in industry.

The dual focus of the MSc MIMAS programme on Management Accounting and IT skills, allied to the emphasis on communication skills and professionalism, nurtures a well-rounded, commercially aware and technically robust graduate ready to slot into the workforce and add value from the start to any organisation they join.

Unique aspects of the Programme:

- MIMAS is unique in its professional nature, its focus on career and its diversity
- Students hone their analytical and communication skills with industry panels, guest lecturers and group projects
- Work on placements starts immediately, leveraging past experience and new skills to build career opportunities
- The programme attracts a diverse audience, who, by working closely together, acquire confidence in team work and collaboration
- Exemptions from the professional examinations of global accountancy bodies. Including entry into CIMA’s Gateway Programme

Entry Requirements 2019

Minimum 2H2 (GPA 3.00 out of 4.00) primary degree [NFQ Level 8] or equivalent. You may also be admitted to the course on the basis of extensive practical or professional experience. No prior knowledge of Accounting /Information Systems is required.

Duration: 15 months
Teaching Mode: Full-time
Qualification: MSc
NFQ Level: Level 9
Programme Code: CKL05
Fees: Irish/EU €10,500
International (NEU) €18,000

The MSc Design and Development of Digital Business (MScDDDB) is a 12-month full time postgraduate programme.

It provides creatively-minded students from non-technical backgrounds the skills and technical knowledge to explore interesting real-world problems and create innovative new digital products and services.

Students learn how to gather requirements, analyse markets, design business models, prototype specific solutions, develop websites and online communities, develop mobile apps, and build databases. These practical skills are balanced with overarching values of design thinking, human centrism, and user experience.

To bring these values and skills together, we coordinate with a range of industrial partners so students can gain hands-on experience designing and developing for complex, contemporary, and meaningful real-world problems. This intensive and innovative course offers a world-class student experience. Having completed the course, students will have:

- The knowledge, skills, and techniques to design innovative new digital products and services.
- The technological skills to develop complex digital solutions, complete with user-friendly interfaces and sophisticated data structures.
- The critical understanding to design innovative new business models and processes.
- The marketable skills to ensure future employment opportunities, nationally and internationally.

**Unique aspects of the Programme:**

- Offers a unique opportunity for graduates from non-computing disciplines
- Technology courses are grounded in a practical, real-world business context and designed for students with little or no prior experience in computing technology

**Graduate Roles Include:**

- Business Analyst
- Web/Mobile Software Developer
- User Experience Designer
- Database Administrator
- Technical Writer
- Technology Consultant

**Entry Requirements 2019**

Minimum 2H2 (GPA 3.00 out of 4.00) primary degree [NFQ Level 8] or equivalent, in any discipline except those with high levels of software development content (e.g. computer science, business information systems, etc.).

**Duration:** 12 months

**Teaching Mode:** Full-time

**Qualifications:** MSc NFQ Level: Level 9

**Programme Code:** CKL17

**Fees:** Irish/EU €10,500
International (NEU) €18,000

MSc INFORMATION SYSTEMS FOR BUSINESS PERFORMANCE
CKL18

The MSc Information Systems for Business Performance (MSc ISBP) provides students with a coherent set of skills which are essential in building, managing and leveraging effective and efficient information systems (IS) for organisations.

MSc ISBP graduates will acquire the skills necessary to manage and leverage IS for problem-solving, value-generation and cost savings.

This is a 12-month intensive conversion course with industry mentored collaborative projects.

Students are taught from beginner level, and prepared to take up business analyst / programmer and management positions in IT departments in small, medium or large organisations, whether public or private, in the financial services, manufacturing or any sector.

Minimum 2H2 (GPA 3.00 out of 4.00) primary degree [NFQ Level 8] or equivalent. Open to all graduates except graduates holding a degree in business information systems or equivalent. Note that meeting minimum requirements does not guarantee entry onto the programme.

Entry Requirements 2019

MSc INNOVATION IN EUROPEAN BUSINESS
CKL25

Delivered by three international partners: UCC, Ireland; Institut Supérieur du Commerce de Paris, Paris, France; and HU University of Applied Sciences, Utrecht, The Netherlands, the MSc Innovation in European Business (MSc IEB) is designed to meet the needs of industry by training students to understand innovation and change within an international perspective.

The MSc IEB is a 15-month programme delivered across locations in Ireland, France and the Netherlands.

Businesses often find that young professionals have management skills and knowledge but lack creativity and an awareness of the specific challenges required to implement and manage innovation.

MSc IEB students will be trained to understand how to manage dynamic environments. Students will gain state-of-the-art knowledge on how to implement and manage sustainable innovation, learning to focus on business deliverables and business interactions through a company placement and also by presenting a research project as a dissertation.

Accreditation
Students on this programme are eligible for ‘Graduate Membership’ of the IMCA (Institute of Management Consultants & Advisers in Ireland) for the duration of the programme of study, and for one year post-graduation.

Unique aspects of the Programme:
- MSc IEB includes staff participation from: IBM, SolarWinds, Microsoft, Accenture, Enterprise Ireland, the Industrial Development Agency, and many other organisations

“Citibank are very encouraged by the development of the MSc Innovation in European Business. Innovation is key to the smarter economies of the future and this programme will prepare you to fill a wide variety of positions related to the management of the innovation cycle in modern organisations. The skills you will acquire in this ground breaking programme are critical skills for many industries and businesses.”

Gavin Callan
Head of Research & Academic Collaboration for Citi’s Research, Development, innovation and Learning (RDIL) Centre, Dublin

ENTRY REQUIREMENTS 2019
Minimum 2H2 (GPA 3.00 out of 4.00) primary degree (NFQ Level 8) or equivalent, in a Business-related discipline, a relevant area of the Social Sciences and Humanities or Science / Technology.

Taught modules run from September to December in Cork, January to March in Paris, followed by a 5 month internship and a final session of taught modules running from September to December of the following academic year – the programme running over 15 months in total.

Duration: 15 months
Teaching Mode: Full-time
Qualifications: MSc

NFQ Level: Level 9
Programme Code: CKL25
Fees: Irish/EU €10,500
International (NEU) €18,000

MSc BUSINESS INFORMATION ANALYTICS SYSTEMS
CKL51

Business Analytics enables organisations to exploit the data and IS systems at its disposal to maximise organisational performance. Students will develop the skills necessary to gain business insights to improve decision-making.

The MSc Business Information and Analytics Systems (MSc BIAS) provides students with a portfolio of business and analytical methods for solving problems and supporting decision making. The MSc BIAS provides students with a specialism in Business Analytics as well as an extensive knowledge of business and IS concepts.

At the core of this programme is a selection of topics covering cloud technologies, Business Intelligence and Business Analytics, IT performance management, data management and IT project management.

A research project will allow student groups to explore and develop an IT solution to a specific business problem in an area specific to the Business Information and Analytics area.

This programme provides students with the technical skills and techniques needed by organisations to explore organisational issues and support decision-making within a business context. These skills are essential in any organisation where IT is integral to the success of the business.

Unique aspects of the Programme:
- Students develop a skill set appropriate for roles such as business analyst, data analyst, consultant, project manager and IT manager
- Strongly associated with business where data and information plays a critical part
- Active input on programme content and specialisms is continuously incorporated from multinational industry leaders
- Considers the technical enabling capability of IS and the behavioural aspects of management that support informed decision making
- Places an emphasis on design thinking and a cognitive approach to decision making

Dr. Simon Woodworth
T +353 (0)21 490 3830
E s.woodworth@ucc.ie

Entry Requirements 2019
Minimum 2H2 (GPA 3.00 out of 4.00) primary degree [NFQ Level 8] or equivalent, with appropriate information systems or computing technology skills content. You may also be admitted to the course on the basis of extensive practical or professional experience, as deemed appropriate by the Professor of Business Information Systems and the Business School.

Duration: 12 months
Teaching Mode: Full-time
Qualification: MSc
NFQ Level: Level 9
Programme Code: CKL51
Fees: Irish/EU €10,500
International (NEU) €18,000
The MSc in Cyber Risk for Business (MSc CRB) provides students with the skills they need to become Information Systems (IS) security analysts, IS risk auditors and to understand IS risk and data governance and project management.

The programme provides students with a portfolio of business and project management skills, as well as enhancing knowledge of IS concepts and core technical skills.

At the core of this programme is a selection of topics covering cloud technologies, IT performance management, data management as well as IT project management. Students specialize in the topic of Information Systems (IS) Cyber Risk. This allows students to fulfil the industry need for professionals who can establish and manage robust systems that are secure against data loss and data breach.

A research project will allow students to explore and develop an IS solution to a specific business problem in the domain of information security and risk management.

This programme allows students to gain a critical understanding of audit controls and security measures to help organisations minimise Cyber Risk in an increasingly hostile and unstable environment. Systems failure or data breach due to attack or leakage are increasingly costly scenarios which ultimately can prove fatal to some organisations.

**Unique aspects of the Programme:**
- Provides students with the skillset to be successful in roles such as Data Protection Officer, IT Risk Analyst, Security Analyst and Threat Intelligence Analyst
- Strong emphasis on hands-on learning, group work and teamwork
- Practical lab approach to Ethical Hacking and Threat Analysis
- Aligned with ISACA COBIT 5 on Risk Auditing and Information Systems and Data Governance
- Course materials informed by and frequently reviewed by industry partners
- Opportunities to visit local security industry sites to see Cyber Risk management techniques in practice

MSc FINANCE (ASSET MANAGEMENT)  
CKL40

The MSc Finance (Asset Management) is a one-year programme designed to prepare students for careers in the international investment, asset management, finance and banking industries.

Students in this programme focus on developing analytical and professional skills, culminating in an applied quantitative research project or placement.

This finance course has been designed in conjunction with industry to ensure it meets the skills needs of employers. On completion of the MSc Finance (Asset Management), you can expect to have excellent career prospects in investment management, banking, insurance, proprietary trading, wealth management and alternative investment.

The MSc Finance (Asset Management) is a member of the CFA® Institute University Affiliation Programme and is a CAIA® Association Academic Partner. These partnerships ensure the programme content remains up to date with industry and relevant to the needs of employers.

Uniquely, this MSc Finance programme provides the opportunity for students to study for CFA® and/or CAIA® professional examinations in conjunction with their MSc degree. Faculty are eligible to grant a number of scholarships each year to students on the programme who wish to sit the CFA® or CAIA® examinations.

Unique aspects of the Programme:
- Students will study towards the CFA®, CAIA®, QFA (or equivalent) exams while completing the MSc Finance (Asset Management)
- First Masters programme in Ireland, and one of the first in the world, to offer academic credits for studying towards professional exams
- Only programme in Ireland that utilises leading US based international financial services industry professionals as lecturers
- Students can complete an applied finance project and/or an industry relevant placement as part of this programme

Entry Requirements 2019

Applicants must normally have (or expect to have in the year of entry) a 2H1 degree in:
- A business related programme (i.e. Commerce, Law, Business Studies, Economics, Accounting, Finance, Marketing, Information Systems, Management etc.) OR
- A programme with a significant quantitative element (i.e. Mathematics, Statistics, Engineering, Science, Computing etc.)

The MSc Finance (Banking and Risk Management) programme involves the advanced study of the practices of investment, banking and risk management, including topics such as: Asset Pricing; Portfolio Management; International Finance; Financial Institutions; Capital Markets; Treasury Management; Derivative Securities; Risk Management.

This programme also involves an applied research project, using cutting-edge techniques and software.

As well as providing a rigorous grounding in theory and methods, the programme will provide students with the practical skills and techniques widely used in financial markets.

The programme covers much of the CFA Levels 1-3 syllabus and includes regular presentations and workshops from external practitioners.

Students will also manage their own simulated asset portfolio on-line throughout the year, putting theory into practice.

Unique aspects of the Programme:

- Close to 100% employment record since inception
- At the top end of graduate study in business and finance in Ireland
- Provides students with the practical skills and techniques widely used in financial markets
- Manage a simulated asset portfolio on-line throughout the year to put theory into practice

The MSc Business Economics is an integrated course applying economics to the business environment.

Designed in consultation with leaders from the business community and public sector organisations, this unique course equips students with key skills for career development in an ever-changing business world.

This is a challenging research-orientated programme, which is both theoretically grounded and evidence-based.

The focus is on analysing, understanding and explaining business performance in a competitive environment.

Programme participants are expected to utilise the many opportunities for self-development. The programme also provides a good foundation for those interested in undertaking further study at PhD, DBA or professional development level.

Accreditation

Students on this programme are eligible for ‘Graduate Membership’ of the IMCA (Institute of Management Consultants & Advisers in Ireland) for the duration of the programme of study, and for one year post-graduation.

Unique aspects of the Programme:

- Application of concepts and frameworks to an actual business situation- translating learning into practice
- External business advisors to provide guidance and advice, ensuring the relevance and effectiveness of the skills developed during this programme

“The MSc Business Economics provides the sophisticated techniques necessary to evaluate alternatives and communicate the results necessary to make sound business decisions. This is a high-intensity application oriented but hugely enjoyable course”

Christina O’Keeffe
Risk & Compliance Officer, Fexco Merchant Services

Entry Requirements 2019

Minimum 2H2 (GPA 3.00 out of 4.00) primary degree [NFQ Level 8] or equivalent. Note that there is NO requirement for Economics or Business subjects to be part of the primary degree. Consideration will be given to applicants not meeting the above criteria (i.e. no primary degree) but with extensive relevant professional experience.

Duration: 12 months full-time / 24 months part-time
Teaching Mode: Full-time / Part-time
Part-time option is 24 months by day (part-time options open to EU applicants only)
Qualification: MSc
NFQ Level: Level 9
Programme Code: CKL06
Fees: Irish/EU €10,500
International (NEU) €18,000
The MSc Management and Marketing programme is a one-year degree programme for graduates who have taken no, or limited, management or marketing modules in their undergraduate degree.

This programme is designed for students wishing to pursue a career in management or marketing or focus on a specific strategic innovation, enterprise or marketing capability.

Students of this programme typically come from a variety of academic backgrounds, including science, arts, engineering, law and social science.

It is also suitable for those with professional or academic qualifications like medicine or accounting.

This unique programme places great emphasis on the creative and innovation aspects of management and marketing which are essential for business careers and for the development of a knowledge-based economy.

Accreditation
Students on this programme are eligible for ‘Graduate Membership’ of the IMCA (Institute of Management Consultants & Advisers in Ireland) for the duration of the programme of study, and for one year post-graduation.

Unique aspects of the Programme:
- Full-time professional placement or a supervised research dissertation
- Practical assessments, participative and real world team-based learning involving both individual and group-based project work
- Practitioner and specialist delivery of certain course elements, including workshops and field trips
- Personal development, including presentation and communication skills, along with one-on-one coaching sessions for placement and interview preparation

“I would like to thank you for an amazing year. I thoroughly enjoyed the course and feel it was the best thing I have ever done. I would also like to thank you for all your help and support throughout the year. I look forward to meeting you all in the future.”

Bronwen Cruise O’Shea
2018 Graduate, Musgrave employee

This one year MSc course will give participants a deeper understanding of co-operatives, sustainable development and the agri-food system.

This is a unique course, with a very strong practical emphasis, and will equip participants with the organisational, management and research and policy analysis skills needed to make innovative contributions to the development of local economies.

It is aimed at graduates from a wide range of disciplines who wish to pursue careers in sustainable development and innovative practice leading to positions in the food sector (ranging from local food enterprises to large multi-nationals), local and international rural development, shared and collaborative economy, NGOs, innovative community businesses including co-operatives and social enterprises, local and regional enterprise development, consultancy, corporate social responsibility, policy formulation and analysis.

Accreditation
Students on this programme are eligible for ‘Graduate Membership’ of the IMCA (Institute of Management Consultants & Advisers in Ireland) for the duration of the programme of study, and for one year post-graduation.

Unique aspects of the Programme:
- Only programme of its kind, which fully integrates co-operative approaches into the study of sustainable development and agri-food
- Especially practical in delivery, including practice-based research project in an organisational setting (placement) and applied assessment
- On-going exposure to practitioners and specialists in the field
- Career and personal development opportunities

Scholarships
Applicants may apply for a range of scholarships to undertake this programme. These include the Jack Murphy FDC Group Scholarships which are valued at €12,500 each and include a highly relevant placement opportunity.

Entry Requirements 2019
A minimum second class honours degree (level 8) or equivalent, in a wide range of disciplines. Consideration may be given to applicants who do not hold a second class honours degree but who have sufficient relevant experience, subject to approval by the School of Business.

Duration: 12 months
Teaching Mode: Full-time
Qualification: MSc
NFQ Level: Level 9
Programme Code: CKL03
Fees: Irish/EU €10,500
International (NEU) €18,000
This one-year MSc programme will prepare students to work in the critical areas of food and nutrition security and international development.

This is a unique course with a strong applied focus, which will equip participants with practical skills particularly in policy development and implementation, project and programme management, and impact assessment. These skills will be critical for people working to address the challenges of achieving food and nutrition security globally and locally, in line with the UN Sustainable Development Goal of Achieving Zero Hunger.

The programme is aimed at graduates from a wide range of relevant disciplines, as well as early and mid-career professionals already working on food security, malnutrition and related issues. Graduates from this programme will be well equipped to pursue careers in a wide range of national and international organisations working in this field – multi-lateral organisations, Government, NGOs, private sector companies and research institutions.

Collaboration with the International Food Policy Research Institute (IFPRI)

IFPRI has been conducting food policy research in developing countries over the past 40 years. It offers selected sessions as well as to provide research materials and methods for the design and delivery of the courses under this programme.

Unique aspects of the Programme:
- Practice-based research project in association with development organisations
- Applied focus
- Only course in Ireland primarily focussed on food and nutrition security policy and management
- Regular inputs from development practitioners ensures focus on real-world challenges and innovative solutions
- Competitive fees
- Location in Business School with linkages to wide range of organisations in public and private sectors and civil society.

Entry Requirements 2019

A minimum Second Class Honours degree (Level 8) or equivalent in a relevant subject. Consideration may be given to applicants who have not attained this level but who have sufficient relevant experience, subject to College approval.

Duration: 12 months
Teaching Mode: Full-time
Qualification: MSc
NFQ Level: Level 9
Programme Code: CKL04

This MSc course prepares students for a career in dynamic food businesses to play a lead role in the analysis of key sectorial issues and strategic management of the food industry.

The balance of modules on this programme reflects the global nature of the food industry. Students will expand their knowledge of food, the food consumer, entrepreneurship, innovation in food and the decision-making processes in companies that develop, brand, distribute, and sell food products.

Through practical application, this programme will equip graduates with analytical, communication, business and presentation skills, which are required and highly valued by the industry.

Graduates from the MSc in Food Business and Innovation course pursue employment opportunities in the food sector (international corporations, SMEs, start-ups and food agencies) and non-food sector (banks, market research firms and higher education) as the skills acquired are highly transferable.

Unique aspects of the Programme:
- A central aspect of the programme is an Applied Food Industry Centred Research Project with the opportunity to either work in or complete research for a food firm, food agency, university, bank or related establishment, where students gain valuable work experience and apply the theoretical skills developed through lectures and capstone style seminars
- Additional unique features of the MSc in Food Business and Innovation programme include: an in-depth introduction to the national and international food sectors; a unique blend of relevant courses that are relevant to both established food firms and start-ups; and an introduction to leading edge food research issues

ENTRY REQUIREMENTS 2019

To be eligible for the MSc in Food Business and Innovation, candidates must hold at least a Second Class Honours Grade II in a primary degree (level 8). Consideration may also be given to applicants who have a minimum of three years’ relevant professional experience, subject to the approval of the Programme Director.

Duration: 12 months
Teaching Mode: Full-time
Qualification: MSc
NFQ Level: Level 9
Programme Code: CKL02
Fees: Irish/EU €10,500
International (NEU) €18,000
PG Dip ECONOMICS OF BUSINESS PRACTICE
CKJ01

The Postgraduate Diploma in Economics of Business Practice is designed to provide a distinctive, practice orientated programme, through which students can develop an applied knowledge and comprehensive understanding of how business operates.

The programme is designed for students wishing to pursue a career in business or those seeking to establish their own business. Participants develop an entrepreneurial skillset, through the creation of their own campus based business, which can be used in employment or to set up their own business.

This unique programme emphasises the knowledge and skills, including those related to their personal and professional development, that business ready graduates need to succeed in their chosen career.

Assessment modes reflect the strong practice orientation of the programme which focuses on continuous assessment with few end-of-semester exams.

The MSc in Economics of Business Practice is a natural progression route. After fulfilling the criteria for progression, students can transfer to the MSc which is a 6-month work placement and research project.

Unique aspects of the Programme:
- Develop and apply an entrepreneurial skillset that can be used within existing businesses or to create a new business
- Focus on personal and professional development including presentation and communication skills as well as CV and interview preparation
- The MSc Economics of Business Practice offers students the opportunity to complete a 6-month work placement and research project

Students are challenged and supported on their professional journey by a team of careers service advisors, academic mentors and business placement mentors.

Note: PhD students pay a continuation fee of €1,700 pa for Year 5 & subsequent years
WHAT OUR STUDENTS & GRADUATES SAY ABOUT US...

Emma Oliver
MSc Management & Marketing

After graduating from UCC in 2013 with a BA in French and Politics, I still was not settled on what career path I wanted to pursue. I decided to move to Paris for the year - not a bad place to live while figuring things out!

While out there I decided that I wanted to go down a more business type route, which is why this course was perfect for me. It is a conversion masters, which is great for anyone who wants a second chance to do something business related in college.

I had held marketing roles throughout college, which originally drew me to the marketing side of things, however since starting the course I’ve found my management classes to be my favourites! Everyone has come from different disciplines which is great for lively debates in class.

“THE PLACEMENT OPTION IS GREAT AS YOU CAN THEN APPLY EVERYTHING YOU HAVE LEARNT IN A REAL BUSINESS ENVIRONMENT AND POTENTIALLY HAVE A JOB AT THE END OF IT.”

It can be quite stressful at times but you gain fantastic skills in time management and working efficiently towards deadlines - great to talk about in a job interview!

Coming from an Arts undergrad, it was great to be in a small class where the lecturers treat you more like colleagues than students with a great open door policy.

It is a great learning environment where we are constantly taught to challenge the status quo. It is the type of course that the more you put into, the more you will get out of!
Maeve O’Connell  
MSc Information Systems for Business Performance

After ten years in the workforce and with a desire to change my career path, ISBP was the perfect choice for me. I found it incredibly relevant to the IT industry, almost every day I touch on something that I learned during the year.

The employment opportunities are great, with many of my classmates finding jobs before the course had finished and many, including myself, very shortly after. I wouldn’t hesitate in recommending it to anyone who is interested in working in IT.

Muireann MacAuliffe  
MSc Finance (Corporate Finance)

The MSc Finance (Corporate Finance) has provided me with the ideal platform upon which to enter the financial services industry. This course has a great balance between the theoretical side, acquiring vast knowledge on different financial areas, and the practical side which involves interesting case studies and presentations.

Furthermore, there is a strong focus on your future career with constant advice and support from both lecturers and other advisors. This help, combined with the financial knowledge and practical skills, such as group work, that I have acquired throughout the course have undoubtedly helped me to obtain my desired career in the exciting financial world.

Anup Ranjan Das  
MSc Asset Management

I found the quality of the academic staff to be superb and that the programme is very well designed to combine academic teaching with hands-on learning experiences. With such a small class, the lecturers and staff truly get to know the students and are very available to help and assist students.

I particularly enjoyed the relationships established with fellow students from diverse academic and cultural backgrounds. Lastly learning in UCC’s beautiful campus right at the heart of Cork city made the whole experience truly unforgettable.

Fiona Corcoran  
Microsoft, MSc MIMAS graduate

The Financial Auditor Internship was a unique opportunity. Not only have I had the chance to visit corporate HQ in Seattle, but also to meet colleagues in subsidiaries in Europe and the Middle East.

From the outset of my internship I have had meetings with senior staff members from many areas of business, improving my business communication skills and opening up many networking opportunities. At the end of my internship, I had the chance to interview for three different roles and accepted a role with the Credit Services team.

Mr Peter Corcoran,  
MSc Finance (Banking and Risk Management), Corporate Treasury, Investec Bank

When I started looking into the available masters in finance, the highly quantitative nature of this course caught my eye straight away. Every employer at the time was looking for candidates with strong quantitative and analytical skills. These credentials are still very much in demand today, if not more so than when I graduated.

"THIS COURSE GAVE ME A MUCH GREATER UNDERSTANDING OF HOW GLOBAL MARKETS ACTUALLY WORK AND THE FINANCIAL THEORIES UPON WHICH THEY ARE BASED."

During the lectures we were encouraged to ask questions and to get involved. In addition, the assignments were very well thought out.

The vast majority were real work problems that pushed us to think outside the box and not just to come back with generic solutions. Having completed this course, it helps me every day in my role with Investec Bank where I am responsible for providing cash & foreign exchange management, and other treasury services to the bank’s corporate and institutional clients, to help them achieve their strategic goals. Each client has different needs so every solution has to be tailor made.
Cork University Business School is one of the two largest university business schools in Ireland.
WHY STUDY IN CORK, IRELAND

- Proximity to UK and Europe
- Ireland is the only English speaking country in the Eurozone
- Ireland is the world’s largest exporter of software
- The European (or regional) headquarters and / or customer service operations of a range of multi-national corporations including Google and Facebook are all located in Ireland
- Population of Ireland is 4.5m
- GDP 210.3bn USD
- Cork is Ireland’s second city
- Safe place to live
- Voted one of the top 10 cities in the world to visit (Lonely Planet 2010)
- A major centre for the Arts in Ireland (European Capital of Culture 2005)
- Cork named Best Small City in Europe (Financial Times fDi Magazine, 2016)
- Gateway to some of the most scenic areas in Ireland
- Cork has the cosmopolitan culture and energy of a capital city, with none of the disadvantages and all the facilities you’d expect in a modern European city
- The city is the main commercial and banking centre in the south of Ireland. It is also a thriving seaport and home to a wealth of modern industries
- Cork University Business School is located on University College Cork’s campus which is a 10 minute walk from the city’s main shopping district
- Cork has an international airport with several direct daily flights to London and direct flights to East Coast USA
- Ireland is the world’s largest exporter of software

- Cork University Business School is located on University College Cork’s campus which is a 10 minute walk from the city’s main shopping district
- Cork has an international airport with several direct daily flights to London and direct flights to East Coast USA
Cork University Business School (CUBS) is an integral part of UCC, providing challenging and innovative programmes to our students, delivering focused centres of excellence, world-class researchers and establishing strong links with business and industry at a national and international level.

Effective from January 2015, the business school was given its current recognition as Cork University Business School. However, the school has a history that stretches back over 150 years, to the formation of University College Cork (UCC) as Queen’s College Cork, part of the Queen’s University Ireland, in 1845. CUBS is one of the two largest business schools in Ireland with:
- The largest number of full-time undergraduate students
- The second largest number of full-time graduate students
- Joint largest research income of any business school in Ireland

CORE VALUES
Our core values are accessibility, creating a stimulating learning environment, providing industry focus which is underpinned by intellectual contribution and research and ensuring diversity across our student body and staff.

At the Cork University Business School, we offer a broad range of undergraduate, postgraduate, doctoral and Executive Education courses which are developed to address the individual needs of our students, providing high quality business education, knowledge and research.

Our extensive range of business degree programmes is responsive to student and market demands and contributes to a strong collaboration with past graduates and businesses in both the local and national economy.

The breadth and depth of programmes available across each of our disciplines within the business school contribute to a high value educational experience based on application of business learning and development of practical and transferrable skills.

The Cork University Business School at UCC is committed to enhancing the knowledge and practice of business.

Our teaching goals include a commitment to innovation, excellence and continuous learning in what and how we teach.
CUBS...

- Is the 2nd largest Business School in Ireland
- Has over 3,500 students
- Has more than 130 faculty
- Has access to a network of over 100,000 UCC and CUBS alumni around the world

UCC IS...

- Ranked in top 2% of the World University rankings
- One of Ireland's most international universities with over 3,000 international students
- A leading international research university
- The Sunday Times University of the Year 2016 and 2017
- First university in the world to be awarded a Green Flag from the Foundation for Environmental Education
- Ireland's first 5-star university
- Ireland's first Health Promoting university
- An Athena SWAN Bronze Award holder
**HOW DO I APPLY?**

Applications for all CUBS taught postgraduate and research programmes can be made through the online Postgraduate Application Centre (PAC). All prospective students can use the PAC website to apply for programmes and to track the status of their application at all stages [www.pac.ie/ucc](http://www.pac.ie/ucc).

For further details, including information on the application process for international students please refer to Entry Requirements section on the relevant programme page of the CUBS website [www.cubsucc.com/programmes/postgraduate/](http://www.cubsucc.com/programmes/postgraduate/).

**WHAT WILL IT COST?**

Details of individual programme fees for both EU and International students can be found on the CUBS website [www.cubsucc.com/programmes/postgraduate/](http://www.cubsucc.com/programmes/postgraduate/).

Additionally, please refer to the fee details on the previous programme pages - or for more information on payment of fees you can visit the UCC Fees Office [https://www.ucc.ie/en/financeoffice/fees/](https://www.ucc.ie/en/financeoffice/fees/).

There are a number of independent funding opportunities available to students pursuing specific courses of study in CUBS. Further information on scholarships is available from the following link: [https://www.cubsucc.com/postgraduate-scholarships/](https://www.cubsucc.com/postgraduate-scholarships/).

**WHERE CAN I LIVE?**

At CUBS, we appreciate how important it is for students to have comfortable accommodation at a reasonable price. Accommodation at UCC is available in 24 purpose built student complexes as well as in private houses located off campus in locations near the University.

Within UCC there are a number of services which assist with accommodation including the Office of Residential Services and Community Relations ([https://www.ucc.ie/en/advice/](https://www.ucc.ie/en/advice/)). This office provides advice to students on accommodation in Cork, and they would handle accommodation placements and advice on private accommodation.

Apartments are available on a fixed term basis. The contract can be for one semester or a full academic year depending on your term of study.

For admission purposes all applicants are divided into two categories:

- Irish, EU and European Economic Area countries (EU)
- International (Non EU)

It is important that you establish your status before you make an application to CUBS as you will retain your status (EU/NEU) during your study and you will be unable to change from one category to the other during the programme.

**EU STATUS**

An applicant’s principal residence for the purpose of taxation must have been in a European Union Member State for a minimum of 3 of the 5 years prior to entry to university. Prior residence as a full-time student alone does not qualify a student for EU fee rates.

If an applicant is under 23 years of age on the start date of the course then the principal residence for the purpose of taxation of the parents will be examined.

The applicant must also have been resident for the required period.

If an applicant is over 23 years of age on the start date of the course then the principle residence for the purpose of taxations of the applicant is examined.

P21 forms will be required in both instances and will be requested when an applicant applies through the Postgraduate Application Centre to confirm EU status.

**INTERNATIONAL STATUS**

If you do not meet the criteria outlined above you will qualify as an International applicant.

This means that you pay International fees and apply through the International Education Office.
INTERNATIONAL COMMUNITY

At Cork University Business School you will study with the best and the brightest students from all around the world including Ireland, China, India, Nigeria, Saudi Arabia, the UK and the US, to name just a few.

CUBS is a part of UCC, which is one of Ireland’s most international universities with almost 3,000 international students.

LANGUAGE REQUIREMENTS

Applicants from non-native English-speaking countries will be required to undertake a recognised English language test such as IELTS, TOEFL, Cambridge and Pearson.

This requirement will only be waived in situations where a student has completed their full undergraduate degree in a native English speaking country (e.g. Ireland, UK, Australia, New Zealand, Canada, USA).

Full details of accepted tests and minimum requirements are (Note: IELTS & TOEFL requirements are higher for MSc Food Business programme only):

- **IELTS**: 6.5
  With no individual section lower than 5.5
- **TOEFL**: 90
  With minimum scores as follows:
  - Listening: 17
  - Reading: 18
  - Speaking: 20
  - Writing: 17
- **Cambridge Proficiency Exam**: Grade C
- **Cambridge Advanced Exam**: Grade B
- **Pearson PTE**: Minimum Score of 63
  With no section score below 59

Please Note: All accepted English language tests are valid for no longer than a period of two years once an application has been made.

VISA REQUIREMENTS

International students may be required to apply for a study visa to travel to and study in Ireland. To find out if you require a visa visit the INIS website (www.inis.gov.ie).

Only students who intend to enroll on full-time academic programmes can apply for a student visa.

Student Visas are not approved for any part-time academic programmes.

International students requiring visas should contact their nearest Irish Embassy or Consulate for information on visa requirements.

Visas can take up to 8-10 weeks to process, so please allow sufficient time.

EMPLOYMENT

International students, who have permission to undertake postgraduate study in Ireland are entitled to take up casual employment, defined as up to 20 hours’ part-time work per week or full-time work during vacation periods.

Furthermore, in order to encourage talented, skilled graduates to pursue careers in Ireland, international students are permitted to remain in Ireland for an additional period of 12 months on receipt of the results of their final examinations, see the Graduate Scheme Visa for further details: http://www.inis.gov.ie/en/INIS/ThirdLevelGraduateProgramme.pdf

During that period, students are able to seek employment and apply for a Green Card or Work Permit, as appropriate.
