UCC and DIFC launch new Foundation Pathway Programme

UCC is very excited to announce the launch of a new Foundation Pathway Programme in collaboration with [Dublin International Foundation College](#) (DIFC).

The Foundation Pathway Programme is specifically designed for students looking to progress to study Business, Law or Science related undergraduate degrees at university.

DIFC are opening a new centre in Cork to deliver our International Foundation Year courses in Business Management and Science, with students then progressing onto relevant degrees at UCC. Students studying at both the Dublin and Cork centres will be eligible to progress to UCC as part of the Foundation Pathway Programme.

Applications are now being accepted for the first intake of students. This is an exciting new option for students.

You can download the following resources: [Foundation Brochure](#)
[Application Form](#)

Applications and enquiries can be referred to info@difc.ie
