

MSc Finance (Corporate Finance)

CKL21

MASTERS OF FINANCE (CORPORATE FINANCE)

The course has been designed in conjunction with industry to ensure it meets the corporate finance skills needs of employers. Upon completion of the MSc Finance (Corporate Finance), students have excellent career prospects with business advisory, consultancy, corporate, investment banking and venture capital firms.

Corporate finance encompasses diverse topics such as company valuation, private equity, mergers and acquisitions, managing risk and financial regulation. Our programme will provide you with tools to evaluate corporate finance issues and to improve financial management practice.

Students on the programme will gain insight into the financial sector through case studies and guest lectures from industry leaders. In addition, students focus on developing analytical and professional skills, culminating in a corporate finance project or an industry placement.

This programme has been accepted into the CAIA® Academic Partner Programme. Upon graduation from the programme students also have exemptions from certain ACCA examinations.

PROFESSIONAL BODY EXEMPTION

The MSc Finance (Corporate Finance) programme has been accepted into the CAIA® Academic Partner Programme. In addition upon graduation from the programme graduates gain exemptions from certain ACCA examinations.

The CAIA® academic partnership is granted to institutions who cover at least 60% of the entire CAIA® curriculum as represented by the Core Knowledge Outline (CKO).

ACCA has also assessed the MSc Finance (Corporate Finance) for accreditation. Graduates of the programme will be exempted from sitting papers F1-F3.

- Association of Chartered Certified Accountants (ACCA)

MOVERS

WHAT OUR STUDENTS & GRADUATES SAY ABOUT US...

"The MSc Finance (Corporate Finance) has provided me with the ideal platform upon which to enter the financial services industry.

This course has a great balance between the theoretical side, acquiring vast knowledge on different financial areas and the practical side which involves interesting case studies and presentations.

Furthermore, there is a strong focus on your future career with constant advice and support from both lecturers and other advisors. This help, combined with the financial knowledge and practical skills, such as group work, that I have acquired throughout the course have undoubtedly helped me to obtain my desired career in the exciting financial world. "

MUIREANN MACAULIFFE
MSc Finance (Corporate Finance)

"I recently took part in the MSc Finance (Corporate Finance) Business Leader Series and was impressed with how UCC has leveraged its long-standing relationships with executives in financial services and corporate firms to develop this insightful and relevant programme which meets the demand for graduates with highly developed analytical and professional skills."

ADRIAN DOYLE
Managing Director,
Morgan Stanley, Investment Banking
Division, London

"I would not have secured my position without the skills and confidence I gained from the MSc Finance (Corporate Finance) Degree at UCC. My advice to prospective students is to definitely do this course.

It gives a great mix of academic and personal development. The academic side is important in many ways, but the personal progression enables you to compete in the business environment successfully. An undergraduate degree does not prepare you for the business world."

GAVIN BLOWER
Financial Analyst, Kingspan Energy

"The programme has been a fantastic experience; the modules are intense and well supported by relevant real life case studies and the Business Leader Series.

The professors are always supportive with career advice and the class has a nice mix of international students which gave me an opportunity to meet with students from different countries and the locals are always welcoming. I strongly recommend the MSc Finance (Corporate Finance) Degree."

BHARATH HIRVE
Financial Analyst, Bank of Ireland
Class of 2013/2014
