BSc Business Information Systems

CK203

What is Business Information Systems?

BSc Business Information Systems is a four-year degree programme that provides students with an exceptional set of technical and business skills, ensuring that BIS graduates are highly sought-after business professionals.

Leaving Certificate honours mathematics is not required and prior computing or business knowledge is not a prerequisite.

Why study Business Information Systems at UCC?

The goals of this four-year degree programme are to:

- Educate: provide a worthwhile and memorable student experience
- Collaborate: engage with peers and business to cultivate cutting-edge skills in business and IT
- Innovate: leverage and exploit knowledge to devise novel IT solutions for business

The BIS Advisory Board, incorporating a number of senior business executives, advises and ensures that the BSc BIS programme is world-class, relevant, and attractive to business nationally and internationally.

Key Benefits

Outstanding career opportunities:

- Six-month paid business placement
- Problem solving, analytical and business communication capabilities
- Student-centric approach

Work Placement

Six-month paid business placement gives students the opportunity to apply their knowledge and skills in business and also to experience and learn from experts in the work place.

BIS students undertake placement with major multinationals and innovative start-ups in New York, Boston, London, Edinburgh, Amsterdam, Dublin, Cork, and elsewhere, in the financial services, technology, business consulting, medical, and other industry sectors.

"UCC BIS graduates are internationally known for their creative thinking, practical skills, and professional approach, and are constantly in high demand in the job market."

Professor Joseph Feller,
BIS at UCC

Course code: **CK203**

BRIGHT

MOVERS

Student Profile

"Completing my BSc BIS has given me a concrete foundation upon which to build my career, allowing me to leave university as a young graduate equipped with the skills to hit the ground running in the workplace."

The most valuable aspect of my degree was completing the six-month work placement as part of my third year, working as a quality assurance analyst at American Tower Corporation in Boston, Massachusetts."

Meadhbh O'Sullivan
BIS Graduate
