MSc Project Management

CKL55

The MSc in Project Management aims to equip participants with a broad perspective of project and programme management including technical, managerial and business skills.

The programme is supported by academic and expert practitioners who deliver a curriculum that is relevant, current and research-informed.

The use of interactive seminar and workshop formats, case studies, group and individual exercises support the development of decision-making and problem-solving skills.

The programme ensures that participants understand project management in an organisational context through the emphasis on strategic alignment and the management of resources.

PROGRAMME DESCRIPTION

Covering key competencies in:

- Technical and people focused project management knowledge, skills and abilities
- The application of management frameworks to strategic decision making and resource appraisal
- Managerial, interpersonal and technical skills that maximises the impact of project managers in private, public and non-for-profit organisations
- Using interactive seminar and workshop formats, participants engage in case studies, group and individual exercises in order to develop their decision-making and problem-solving skills
- Ensures that project management is understood in its organisational context by emphasising strategic alignment and the management of resources.

DISTINCTIVE PROGRAMME ASPECTS

This is a 2 year part-time programme.

Delivered in conjunction with Velopi this programme is unique to the marketplace and provides candidates with both internationally recognised academic and professional accreditation in project management.

Combines university-level modules on Project Management, Strategy, and Leadership in addition to preparing candidates for PMP accreditation.

Exposure to cutting-edge research, critical thinking and toolsets.

Provides a balance of technical, managerial and interpersonal skills that maximises the impact of project managers in private, public and not-for-profit organisations.

velopi
